

Call for Internships

The U.S. Department of Agriculture's (USDA) **National Institute of Food and Agriculture (NIFA)** addresses many challenges facing the nation through exemplary agricultural science. NIFA works with the best and brightest scientists at universities and colleges throughout the United States and around the world to find innovative solutions to issues related to agriculture, food, the environment, and communities. With a timely, integrated approach and collaboration with other federal science agencies, NIFA also serves as a vital contributor to federal science policy decision-making.

NIFA is looking for highly-skilled student interns who are passionate about agriculture and how research, education and extension can solve some of society's most pressing challenges, such as global food security, food safety, sustainable bioenergy, climate change, water, and childhood obesity prevention. As an intern, you'll have the opportunity to be a part of a federal agency that is investing in science that will help secure our future as a nation.

Internships are available in the following offices:

Institute of Food Production and Sustainability
Office of Communications
Office of the Director

Institute of Youth, Family, and Community
Office of Grants and Financial Management
