Greetings from the Director.....

This annual report of the Office of Sponsored Programs of the University of the District of Columbia represents a financial summary of submissions and awards of external support for Fiscal Year 2012 to the University that promotes research, innovative scholarship and discovery by UDC faculty, students and staff. External support to the University this year increased by almost 10 % over Fiscal Year 2011 with the University securing over \$19,400,000 in outside funding from private, District and Federal sources.

Our faculty and students, because of their external funding successes, have had an impact not only in the District of Columbia's wards and communities but in countries as far away as Indonesia...all an effort to let others know how the research we are conducting impacts their lives. UDC's reach is far and wide and our impact and influence are growing because of the community of faculty and student researchers that are involved in sponsored program activity.

The Office of Sponsored Programs again applauds the University's research faculty, students and staff as they continue to grow the research enterprise in such a diverse and exemplary fashion. The Office will continue to wholeheartedly support their efforts administratively and programmatically by providing training, technical assistance, counsel and recognition. This year's growth, an almost 10% increase over last Fiscal Year, is a testament to their energy, scholarship and dedication to the University and its tri-fold mission: research, scholarship and service.

Sincerely,

JoVita Wells
