

Recommendations from the ASPPC

1. Recommend that a review be conducted of all programs which based upon the Noel Levitz Report were recommended for elimination of the bachelors degree in lieu of minors or were recommend for discontinuance and/or elimination.
2. Recommend that all current courses offering under the General Education Offerings be cross listed as course offerings under the respective degree programs/areas of their subject matter.
3. Recommend that special sub-committee of the ASPPC be established to recommend solutions for resolving the issues confronting the General Education Requirements. Following is a partial list of known issues of importance:
 - a. A need to establish bench marks
 - b. A need to access the status the effectiveness of the current course which have been offered
 - c. A need to determine how future courses will be created and established
 - d. A need to reconcile the capstone courses of the General Education Program with existing capstone courses of degree programs
 - e. A need to review transferability of our Gen Ed requirements to other institutions
